

Working Student / Intern – Development (m/f)

At Kairion, we sit at the intersection of ecommerce, media & technology. We have developed a suite of groundbreaking ad formats for brands to leverage, and built a highly scalable application system to reach millions of shoppers in our network of leading online-shops in the perfect moment. All demands of this real-time application are tackled using the latest, cutting edge technologies. This is your chance to join a great company, in a great team, with great responsibility.

We are looking for students ready to take the next career steps, joining us as working student or Intern in Frankfurt!

Your Tasks:

- Supporting the development team
- Planning, implementing and maintaining unit & functional tests
- After an initial phase own tasks in development of new features

Your Skills:

- First but solid programming experience in software development / web solutions in a programming language like:
 - A JS-Framework like Angular, React
 - OR node.js
 - OR PHP
 - OR a functional programming language
- Good English
- Ideally, experiences with unit testing and test driven development
- Structured and goal-oriented working style
- Usage of git & Linux

If you have additional questions don't hesitate to contact us. We promise you will learn a lot and soon take on your own responsibilities. We will also provide you with an appropriate onboarding. If doubts arise you will be backed up with a highly professional and motivated team which has a lot of fun at work.

Also, we offer biannual hackathons and a personal education budget in addition to a fair salary and a modern workplace in the heart of Frankfurt.

Interested? Then we're looking forward to a short message:
