

Backend Developer (Node.js) (m/f)

At Kairion, we sit at the intersection of ecommerce, media & technology. We have developed a suite of groundbreaking ad formats for brands to leverage, and built a highly scalable application system to reach millions of shoppers in our network of leading online-shops in the perfect moment. All demands of this real-time application are tackled using the latest, cutting edge technologies. This is your chance to join a great company, in a great team, with great responsibility.

As our Backend Developer you develop and improve controller, aggregation and (micro) services of our ad technology.

Your Tasks:

- Further development of a complex ad management software in Node.js
- Improving the controller modules of the system
- Perform complete testing of Web applications from a unit and system perspective
- Ongoing optimization measures and scaling of the distributed Kairion platform
- Agile approach, short release cycles, test atmosphere and a close cooperation with the product team
- Cooperation and dynamic exchange with professional IT-Teams: Erlang, Frontend (AngularJS / React) and NoSQL

Your Skills:

- Experience and excellent know-how in Node.js
- Strong experience in programming and software development of scalable web solutions
- Fluent English
- Ideally, knowledge and experience in another language (Java, Erlang, Frontend-JS, .NET, PHP)
- Ideally, knowledge of test-driven development (xUnit, Selenium), BDD, Clean Code, Continuous Integration (Jenkins) and deployment processes

If you have additional questions don't hesitate to contact us. We provide onboarding's for any business and tech topics you are interested in. Surely, our highly innovative product will set challenging tasks and let you take on a lot of personal responsibility. You will be backed up with a highly professional and motivated team which has a lot of fun at work.

Also, to maintain your edge, we offer biannual hackathons and a personal education budget in addition to an attractive salary and a modern workplace in the heart of Frankfurt or Sevilla.

Interested? Then we're looking forward to a short message:
